Art Unit: 2652

1. Applicant's election without traverse of "Group (I), claims 1-13" in Paper No. 7, filed 4 February 2002, is acknowledged. Accordingly, claims 14-29 are withdrawn from further consideration pursuant to 37 C.F.R. § 1.142(b) as being drawn to non-elected inventions, there being no allowable generic or linking claim.

2. Upon further consideration, restriction to one of the following inventions is required under 35 U.S.C. § 121:

- I. Claims 1-9, drawn to a "head assembly", classified in class 360, subclass 244.1.
- II. Claims 10-13, drawn to a "semiconductor part", classified in class 438, subclass 106.

3. The inventions are distinct, each from the other because of the following reasons:
Inventions of groups I and II are related as combination and subcombination, respectively. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination does not require for an "under-filling layer", for instance. The subcombination has separate utility such as usable in an assembly not including a "head", for instance.

Art Unit: 2652

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 C.F.R. § 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(i).

7. Any inquiry concerning the above referenced application should be directed to the examiner, Craig A. Renner, whose telephone number is (703) 308-0559, and whose facsimile number is (703) 872-9314. The examiner can normally be reached Tuesday through Friday
